Thanks. Any idea what she is looking for or who she works for?

They are still doing some impacted soil excavation at the Wichita site. They have removed tons (literally) of sediment, but are still chasing a few exceedances based on confirmation samples.

Subject: KORA Request

I was told to have the Safety Kleen/Clean Harbors file ready for a KORA review on February 11, 2015. The request was made by:

Carol Moser Nolan
626-688-1825
cmnolan@earthlink.net

I thought you'd want to know.
